

Oviva Welcomes Dr. Euan Thomson as New Non-Executive Chair of the Board

Zurich, Switzerland, November 19 2024 - Oviva, Europe's leading virtual care provider for weight-related conditions, proudly announces Dr. Euan Thomson as its incoming Non-Executive Chair. Dr. Thomson, a seasoned healthcare leader with over 30 years of experience, will support Oviva's expansion and maturity with his extensive background in scaling health technology companies and driving digital innovation.

"We are thrilled to welcome Euan Thomson to Oviva's Board as our incoming Chair," said Kai Eberhardt, CEO and Co-Founder of Oviva. His exceptional track record—leading a NASDAQ IPO, driving digital health initiatives, and guiding health tech companies in their growth—will be invaluable. His expertise aligns perfectly with our mission to make care more accessible and effective for patients."

Dr. Thomson's extensive leadership experience spans the healthcare technology spectrum. As President and CEO of Accuray Inc., he led the company from startup through a successful IPO on NASDAQ in 2007, establishing it as a global leader in robotic radiosurgery. He later joined Khosla Ventures as a Partner, where he built digital health and analytics strategies for a broad range of portfolio companies, guiding numerous health tech startups in their growth and innovation. In recent years, Dr. Thomson has been at the forefront of digital transformation in medical technology, spearheading cutting-edge initiatives in digital health and ophthalmology. This breadth of experience in both entrepreneurial and large corporate environments positions him well to support Oviva's next phase of growth.

"I am excited to join Oviva and contribute to its important mission," said Dr. Euan Thomson. "Oviva has achieved remarkable growth and impact in digital health, and I look forward to working with Kai and the Board to reach even more people in need of quality care."

ABOUT Oviva

Oviva is creating a healthier future for people living with weight-related conditions by offering highly accessible and effective technology-enabled therapy. As the European leader in virtual care, Oviva combines cutting-edge technology with personalized coaching to empower individuals to make sustainable lifestyle changes and improve health outcomes. With Oviva's medical device-certified app, patients can easily track their meals, physical activity, and weight, engage with a multidisciplinary care team via chat, and access educational content tailored to their needs. To ensure the best individual care, Oviva integrates access to weight-loss medications (GLP-1s) and provides comprehensive, fully reimbursed support before, during, and after treatment. Oviva's holistic care helps people to lead a healthier life, relieves pressure on doctors to advise on weight and lifestyle, and ultimately leads to savings for the health system. Oviva works directly with statutory health insurers and national healthcare systems in the UK, Germany and Switzerland, and has already treated over 900,000 patients across Europe.
