Oviva 

Oviva makes weight loss easy

We provide a remote weight loss programme available on the NHS, led by healthcare professionals. It lasts 6-24 months, depending on whether you need medication. This remote programme covers everything from your eating habits and mental health, to your exercise routine and nutritional needs.

Lose weight with breakthrough medication

Kickstart your journey with weight loss medication** that's proven to help control your appetite, curb cravings and keep you fuller for longer. If medication isn't right for you, you'll still have access to expert support, including personalised nutrition coaching and psychological input if needed.

Keeping track has never been easier

Our app helps you to keep on top of your habits, symptoms and weight, so you can build a healthier routine with helpful advice on nutrition, exercise, and motivation to build your confidence.

Boost your knowledge and confidence

Getting to know yourself better is one of the keys to a healthy life. With Oviva you can access helpful guides on everything from eating right, staying active, and building healthy habits.
