

Locating and launching the Oviva T3WM Referral Form via the Referral Tree.

This document explains the steps needed to access this form. Please note: Each Referral Tree is different and organised based on area preference. If you are unsure what section of your Referral Tree the form sits under, please see your Referral Tree document list, you can locate this in the Localisation section of the PCIT Knowledge Base.

[Localisation Knowledge base](#) (login required).

1) Launch the “Protocol Launcher” (f12) within EMIS Web.

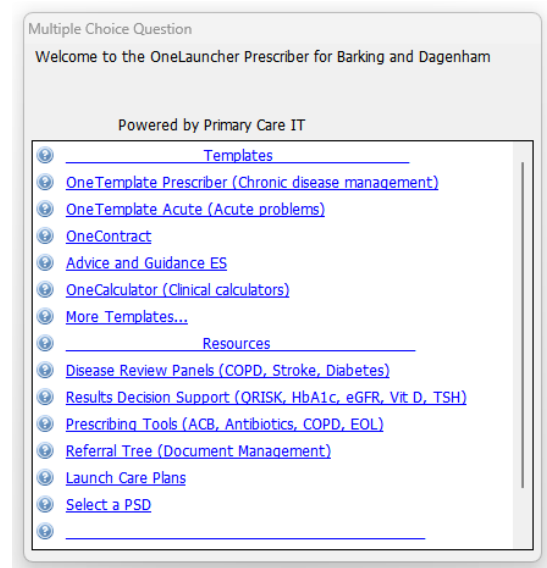

Note: If you are yet to add the “OneLauncher” suitable for your role, please follow the guide here: [Adding Protocols to the Protocol Launcher \(F12\) and using them](#)

2) Open one of the “OneLaunchers”.

Note: users can launch any of the “OneLaunchers”:

- OneLauncher Prescriber
- OneLauncher NonPrescriber
- OneLauncher Admin
- OneLauncher Additional Roles

- 3) Select the “Referral Tree (Document Management)” option found under “Resources”.
