Understanding the criteria

Lancashire and South Cumbria

For Lancashire and South Cumbria, **a two-tier medication policy** is in place. Patients can access the 6-month diet and lifestyle pathway if they meet the inclusion criteria for entry; however, access to the medication pathway is assessed separately in line with the eligibility criteria defined by your local ICB, and we are required to follow these when determining a patient's eligibility.

Inclusion Criteria

A patient must meet one of the following eligibility criteria:

- **BMI ≥50kg/m^{2*}**

- **BMI ≥40 kg/m^{2*} and** has at least one one qualifying major obesity-related condition (complete list):
  - Type 2 diabetes mellitus
  - Obstructive sleep apnoea
  - Severe hypertension treated with two or more agents
  - Idiopathic intracranial hypertension
  - Non-alcoholic steatohepatitis (NASH)/NAFLD
  - Severe osteoarthritis of the spine, hips or knees where surgery is awaited
  - Weight-related infertility or PCOS where fertility treatment is awaited
  - Established atherosclerotic cardiovascular disease, including a history of MI, CVA, TIA, IHD or PVD
  - Heart failure where obesity is a significant contributing factor
  - A requirement for life-prolonging surgery or intervention that can only proceed at a lower BM

- **BMI ≥35 kg/m^{2*} and** has at least four of the following long term conditions (complete list):

**There is a tolerance unit of BMI 2.5 on each element of the criteria above in relation to at-risk groups that have higher obesity prevalence rates particularly those with black African or Caribbean and South Asian origin.*

  - Atherosclerotic cardiovascular disease
  - Hypertension
  - Dyslipidaemia
  - Obstructive sleep apnoea
  - Type 2 diabetes mellitus

Understanding the criteria

Lancashire and South Cumbria

Two tier medication access - Wegovy eligibility

BMI ≥ 35 kg/m² (32.5 kg/m² or above for people from minority ethnic backgrounds) AND at least four of the following health conditions (complete list):

- Type 2 diabetes
- Hypertension
- Atherosclerotic cardiovascular disease
- Obstructive sleep apnoea
- Dyslipidaemia

Exclusion criteria

- Patients under 18 years old
- Patients who are currently successfully losing weight with dietetic or reputable evidence-based weight management intervention.
- Pregnant women - women becoming pregnant during the programme will be able to pause the programme (‘time out policy’) and return to the service following the birth.
- Patients who have been previously referred into the service and have left the pathway early or have disengaged from the services, who are seeking to re-enter as a re-referral will not be eligible within 12 months.
- Patients with uncontrolled hypertension/heart condition/medical condition preventing increase in activity level.
- Patients with unstable or severe mental illness beyond the expertise of primary care.
- Patients with active eating disorders.
- Patients who have made suicide attempts within the last year.
- Patients who have self-harmed in the past 3 months.
- Patients who have made plans to commit suicide in the past 3 months.
- Patients who have had bariatric surgery (defined as sleeve gastrectomy, does not include band or balloon).

How to Refer patients in Lancashire and South Cumbria

1. Locate the Referral Form

- EMIS users: Import the auto-populating referral form template using one of the following methods:

a) Import using Resource Publisher *(see instructions here)*
b) Import using Template Manager *(see instructions here)*

Import the file below to enable access to an auto-populating version of the Oviva Consultant Led Tier 3 Weight Management referral form, which you can store locally.

Import File

Do not import file until all instruction steps are followed to ensure merge fields are intact so all values populate correctly.

- **SystmOne users:** Download the referral form here.

---

2. Identify eligible patients using a search

EMIS users: Import the search following these instructions **(click here)**
The XML file is below and is required for your import.

Import File

Once imported locally, the search stratifies patients by BMI and 'clinical readiness' identifying those who have all relevant, up-to-date clinical measures required for referral.

This tool allows you to proactively identify your eligible patient population, including considering the ethnicity BMI tolerance (< 2.5 kg/m2), and streamlines your workflow by showing which patients can be referred immediately.

How to Refer patients in Lancashire and South Cumbria

Do not import file until all instruction steps are followed to ensure merge fields are intact so all values populate correctly.

SytmOne users: We plan to have this tool available for you soon. Check back here for updates.

2. Submit the Referral

Once completed, please send the referral form and any relevant attachments using one of the following methods.

- Email: ovivauk.t3wm@nhs.net

- NHS e-Referral Service (eRS): Please use the Secondary Care menu and search the following terms on the system:

Name: Tier 3 Weight Management Service (medical) – Oviva
Speciality: Endocrinology & Metabolic Medicine
Clinic type: Not otherwise specified
Organisation or site name: Oviva

Meet your Service Engagement Manager Kimi

Book a short call with me to learn how Oviva can support your patients, including referral guidance, conversation resources, and a quick demo of the app.

Referral checklist

Use this quick checklist before submitting a referral to support rapid triage, safe clinical decision-making and reduced delays to your patient.

Please ensure all fields are completed and supporting documents are attached when submitting a referral to our consultant-led Tier 3 Weight Management programme.

- ✓ Confirmation that the patient meets the eligibility criteria outlined on page 1 of the referral form
- ✓ Referring GP's name
- ✓ Blood pressure reading
- ✓ **Recent blood results (must be within 12 months):**
  HbA1c (mmol/mol)
  Renal Function (eGFR)
  Total cholesterol or serum cholesterol
  HDL cholesterol
  LDL cholesterol
  Thyroid function (TSH)
- ✓ Height, weight and calculated BMI (kg/m^2)
  (Confirmation that weight has been validated in clinic within last 3 months)
- ✓ Retinopathy- if last 2 screening results were normal, should be within last 24 months
  (Not applicable for patients with new diabetes diagnosis (<12 months))
  Please note one of the three tick boxes must be completed.
- ✓ Summary of recent medical history/comorbidities
- ✓ Current medication list - including repeat and acute medications.

Referrals missing any of the information above cannot be accepted. This is to ensure the patient's safety. In these instances, we will contact the GP practice to obtain the missing information.

Unfortunately, if this information is not received, the referral will be rejected.

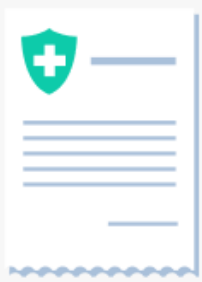

Common Referral Errors

- Eligibility boxes not ticked
- Any of the information listed above is missing (most commonly confirmation that the patient meets the eligibility criteria, thyroid function, total cholesterol/serum cholesterol, LDL and HDL cholesterol results)
- If past medical history contains any apparent information that could affect patient's eligibility and needs to be clarified by the team (e.g. mental health entries)

Enrolment survey

After referral acceptance, patients receive an online survey to collect additional information used to confirm medical history, assess readiness to change, screen for exclusions (e.g. pregnancy, severe mental health conditions, eating disorders, substance misuse), and support MDT triage to the appropriate pathway.

Responses may trigger disqualification or clinical review.

If a patient is disqualified due to BES or PHQ-9 responses, safeguarding procedures are followed and the patient is referred back to their GP. If the GP later confirms eligibility, a new referral must be submitted.

If disqualification occurs due to incorrect survey responses (e.g. uncontrolled hypertension), referrals may be reinstated with GP confirmation that the patient is clinically suitable.
If a patient is incorrectly disqualified due to missing data, reinstatement can be requested by contacting ovivauk.t3wm@nhs.net with evidence that the required information was submitted within the timeframe.

Expected Timeframes

Initial triage: We aim to process referrals within 48 hours from referral receipt. If information is missing, the Oviva team will contact the practice to request completion.
Patients may also be notified but not asked to complete.

Practices are given **56 days to respond before the referral is closed.**

If no response is received, the referral is closed and a re-referral will be required with all information provided.
